Introduced by Senator Hill

December 28, 2012

An act to add Chapter 5.1 (commencing with Section 23710) to Division 11.5 of the Vehicle Code, relating to ignition interlock devices.

LEGISLATIVE COUNSEL'S DIGEST

SB 55, as introduced, Hill. Ignition interlock devices: repeat driving under the influence offenders.

Existing law requires a person's privilege to operate a motor vehicle to be suspended or revoked for a specified period of time if the person has been convicted of violating specified provisions prohibiting driving a motor vehicle while under the influence of an alcoholic beverage or drug or the combined influence of an alcoholic beverage and drug, or with 0.08% or more, by weight, of alcohol in his or her blood or while addicted to the use of any drug, with or without bodily injury to another. Existing law also authorizes a person whose privilege is suspended or revoked in that manner to receive a restricted driver's license if specified requirements are met, including, in some instances, the installation of an ignition interlock device on the person's vehicle.

This bill would establish a statutory scheme under which, as a condition of being issued a restricted driver's license, being reissued a driver's license, or having the privilege to operate a motor vehicle reinstated for a 2nd or subsequent conviction for a violation of the above offenses, require a person to install for a specified period of time an ignition interlock device on all vehicles he or she owns or operates, except as provided. The amount of time the ignition interlock device would be required to be installed would be based upon the number of convictions, as prescribed. The bill would require the department, with regard to the installation of an ignition interlock device described above,

 $SB 55 \qquad \qquad -2-$

to notify the person of the ignition interlock device installation requirements established under the bill, accept notification from the installer of the ignition interlock device of attempts to remove, bypass, or tamper with the ignition interlock device or if the person fails 3 or more times to comply with the maintenance requirements, monitor the installation and maintenance of the ignition interlock device, and keep specified records. The bill would also require that manufacturers and manufacturer's agents, certified by the department to provide ignition interlock devices, adopt a fee schedule for payment of the costs of the ignition interlock device based on the offender's ability to pay, and would require the court to adopt a similar fee schedule with regard to the fees for the county alcohol and drug problem assessment program.

Because it is a crime to operate a vehicle that is not equipped with a functioning, certified ignition interlock device by a person whose driving privilege is so restricted, the bill would impose a state-mandated local program by expanding the scope of that crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Chapter 5.1 (commencing with Section 23710) 2 is added to Division 11.5 of the Vehicle Code, to read:

(2) The department shall advise the person that installation of an ignition interlock device on a vehicle does not allow the person to drive without a valid driver's license.

- (3) Before a driver's license may be issued, reissued, or returned to a person after a suspension or revocation of that person's driving privilege that requires the installation of an ignition interlock device, a person who is notified by the department pursuant to paragraph (1) shall complete all of the following:
- (A) Arrange for each vehicle owned or operated by the person to be fitted with an ignition interlock device by a certified ignition interlock device provider under Section 13386.

- (5) (A) A person who is notified by the department pursuant to paragraph (1) shall arrange for each vehicle with an ignition interlock device to be serviced by the installer at least once every 60 days in order for the installer to recalibrate and monitor the operation of the device.
- (B) The installer shall notify the department if the device is removed or indicates that the person has attempted to remove, bypass, or tamper with the device, or if the person fails three or more times to comply with any requirement for the maintenance or calibration of the ignition interlock device.

- (8) A person who is notified by the department, pursuant to this subdivision, is exempt from the requirements of this subdivision if within 30 days of the notification, the person certifies to the department all of the following:
